A FULL SERVICE ENVIRONMENTAL AND CONSTRUCTION COMPANY

INTRODUCTION

TMG Services, Inc. (TMG) is a small, woman owned, 8(a), Hub Zone Certified, and minority owned full service environmental remediation and consulting firm headquartered in Saint Albans, West Virginia.

TMG has steadily grown since its establishment in 2004 to present. Our ability to exceed the expectations of each of our clients has set TMG apart. TMG has completed many environmental and construction projects and has opened offices in West Virginia, Ohio, Missouri, and Virginia to ensure that the needs of our clients are met.

TMG has leveraged the abilities of our experienced employees and fostered business relationships with other organizations to provide a comprehensive scope of services to our clients. TMG's construction and environmental divisions work cohesively to streamline projects through design, permitting, and on-site activities. Our professional staff consists of environmental engineers and specialists, certified industrial hygienists, licensed environmental specialists, scientists, geologists, drillers, construction managers, estimators, operators, environmental technicians, hazardous site workers, and laborers.

We are committed to providing quality environmental and construction services, with schedules tailored to each clients needs.

Sincerely,

Nicole Perkins, C.E.O.
Linda Frazier, President
Rodney Bumgardner, Vice President
